LIGHTSCALE HOOK AND LINE RIGGING KIT

Part No	Description	NSN
KT-200-545	Complete kit	1385-99-752-0137
Components / Spares		
KT-200-608	50m (55 yards) of 2mm line on reel with karabiner	4020-99-690-7739
KT-200-628	Sacrificial lines in two pouches, 20m of 2mm line in each	4020-99-837-0427
KT-200-610	Mini locking pliers with loop	5120-99-667-8289
KT-200-611	Straight forceps - 150mm	5120-99-213-5951
KT-200-631	Straight forceps - 200mm	5120-99-459-1743
KT-200-604	Double closing hook – large	5340-99-601-9433
KT-200-605	Double closing hook – small	5340-99-517-5845
KT-200-629	Large flat hook	5340-99-936-3750
KT-200-630	Small flat hook	5340-99-162-4779
KT-200-621	Karabiner – 16mm screwgate	5340-99-374-7525
KT-200-622	Karabiner – 25mm screwgate	5340-99-737-2700
KT-200-623	EOD ceramic knife	1385-99-151-5443
KT-200-626	EOD DET multi-tool	5110-99-229-5124
KT-200-636	LED hand torch	
KT-200-632	K-Grip	5120-99-455-9708
KT-200-633	K-Block	3940-99-551-9956
KT-200-634	Snap loops	4020-99-471-5667
Options		
KT-200-396 Black line	Heavy duty rigging line 2mm dia x 110m (120 yards) on winding spool	4020-99-994-2195
KT-200-397 Red line	Heavy duty rigging line 2mm dia x 110m (120 yards) on winding spool	

A complete kit for light scale dismounted operations

The lightweight hook and line kit has been designed to provide essential lightscale capability with all extraneous weight and peripherals removed, thereby providing you with the operational capability you need without the weight you don't.

This kit was developed in response to lightscale operations in current high threat operational deployments and as such has been honed to the needs of high threat IEDD operators or special force units operating on a 'flyaway' basis.

Contents

Essential hook and line rigging tools for semi-remote action

- Safe personal transport of serviceable and unserviceable DETs
- Space for service issue ancillary equipment
